To calculate your premium, use the following formula:

$$\frac{\text{Lifetime income payment}}{\text{Your withdrawal percentage}} = \text{Premium}$$

Annual withdrawal percentages are a percentage of the net premium. The annual withdrawal percentages are truncated and rounded down for simplicity; actual withdrawal percentages are to the 1/100,000th percentage. The lifetime income benefit has an annual fee of .95% based on account value. Withdrawal percentages are based on the (younger) covered person's age when the contract is purchased; the number of complete years between the contract issue date and the date benefit withdrawals begin; and whether the benefit withdrawals are based on the lives of one or two people. Withdrawal percentages shown are based on income being elected at the earliest time available.
