

How guaranteed income can help cover future Medicare costs

Medicare plans require premiums, have deductibles and still do not cover all costs. These are just some of the reasons why the typical retiree spends about \$5,436 annually on health care expenses, according to a survey from 2022, and those costs continue to rise.¹ See how a solution like Protective® Dimensions V variable annuity with SecurePay IncomeSM benefit can help.

Protective Dimensions V variable annuity is a flexible premium deferred variable and fixed annuity contract issued by PLICO in all states except New York on policy form VDA-P-2006. SecurePay Income benefits are issued on rider form VDA-P-6068. Policy form numbers, product availability and product features may vary by state.

Variable annuities are long-term investments intended for retirement planning and involve market risk and the possible loss of principal. Investments in variable annuities are subject to fees and charges from the insurance company and the investment managers.

Withdrawals reduce the annuity’s remaining death benefit, Contract Value, cash surrender value and future earnings. Withdrawals may be subject to income tax and, if taken prior to age 59½, an additional 10% IRS tax penalty may apply. More frequent withdrawals may reduce earnings more than annual withdrawals. During the withdrawal charge period, withdrawals in excess of the penalty-free amount may be subject to a withdrawal charge.

Investors should carefully consider the investment objectives, risks, charges, and expenses of a variable annuity, any optional protected lifetime income benefit and the underlying investment options before investing. This and other information is contained in the prospectus for a variable annuity and its underlying investment options. Investors should read the prospectus carefully before investing.
