Customize Your Coverage

Because every family and business situation can be unique, Protective has designed its policies to provide flexibility to its customers. Policy riders and endorsements allow you to customize your coverage even further to fit your individual needs.

These are intended to supplement your policy for very specific purposes. For example, a rider can provide a death benefit specifically for your children or provide benefits if you become disabled. You choose specific riders or endorsements to create the additional coverage you need and to fill any gaps in your long-term plans.

Please note that riders and endorsements may not be available in all states, and state variations may apply.

ExtendCare benefits are intended to be received on a tax-favored basis. The ExtendCare Rider is intended as a non-medical supplement to traditional long-term care policies and riders. The tax treatment of life insurance is subject to change. Neither Protective Life nor its representatives offer legal or tax advice. Individuals should consult their attorney or tax advisor regarding their individual situation.

The ExtendCare rider falls under IRC Sec.101(g) Accelerated Death Benefit guidelines and does not fall under health regulations. This differentiation could affect eligibility for public assistance programs such as Medicaid, Supplemental Income, or others. Purchasers should consult a qualified advisor along with legal or tax advisor to determine if the rider will affect their initial or continued eligibility for public assistance programs or other tax-related decisions.

Extended No-Lapse Guarantee Rider (L656)

- Available at policy issue for an additional cost
- Available with 1035 loan carryover. Loans may not be more than 80% of the total 1035 exchange amount
- Not available with the Increasing Death Benefit option. Policyowner must terminate the rider before requesting to change to this option
- Loans, withdrawals and other policy and premium changes will affect the cost and length of protection
- Failure to make premium payments as planned may cause the policy to lose lapse protection and premiums required to restore it could be significantly higher
